# MICHIGAN PEAT

## MICHIGAN PEAT - AFRICAN VIOLET SOIL - ROSE SOIL - POTTING SOIL

Michigan Peat is 97% organic matter, weed free and contains almost 3% available natural nitrogen. It is finely textured.

Michigan Peat is not a sphagnum or moss peat -- but a sedge type peat that is decayed vegetation from extensive deposits, centuries old. It is rich brown in color and furnishes the "humus" necessary for greener lawns -- stronger root systems -- more abundant roses - blooms - flowers - healthier plants and vegetables.

Five convenient size packages to fit your needs. Attractive polyethylene bags for counters.
